### About:

I'm an interactive developer living in London since 2006, coming from a mathematics & low level programming (C++, java, etc.) background.

I've always been interested in graphic design, interactive media & have a good knowledge of design, typography, illustration & animation.

I'm a team player (being lead dev or not) and a good problem solver.

Also I'm always keen on taking long term contracts, especially when I can be in a more «tech director» like position to help a company to put in place a development workflow and structure.

### Tech:

- Object Oriented Programming and design patterns (including MV\*, MVCS & FSM).
- I do workflow graphs (using Omnigraffle) before and while working on a project, and like good project architecture.
- I'm fluent in: JavaScript, Actionscript, PHP, CSS, HTML, XML, etc.
- I don't like to reinvent the wheel so I use: Robotlegs, Starling, PureMVC, Grunt (+plugins), SASS (+Bourbon), LESS, Angular, Backbone, Underscore, JQuery, d3.js, etc.
- I also do things with: C++, Openframeworks, Cinder, Objective-C, Arduino, CakePHP, etc.
- Photoshop, Illustrator, InDesign, Flash, etc.

### Worked:

- With: Razorfish, Weir + Wong, Stinkdigital, Rehabstudio, B-Reel, Unit 9, The Digital Club, The Other Media, The Rumpus Room, Bloc Media, Story Worldwide, Reactive, Stereo Creative, Lean Mean Fighting Machine, etc.
- For: Unilever, Google, Google Creative Lab, Nike, Adidas, Wrangler, Youtube, Google Adwords, Samsung, Lexus, Playstation, Oakley, Mac, Cadbury, Nestle, Weetabix, Talktalk, Rankin, British Heart Foundation, Carphone Warehouse, British Airways Media, Daily Telegraph, London Zoo, etc.

## **Education:**

- 2005 / 2006: Second year of Master of Art in multimedia and computer graphics including professional experience - University Lyon 2.
- 2004 / 2005: First year of Master of Art in multimedia and computer graphics including professional experience - University Lyon 2.
- 2002 / 2003: Equivalent to a professional BA in Communication and multimedia including professional experience - University Grenoble 2.
- 2000 - 2002: Diploma of higher education in Mathematics, Computer Sciences & Psychology - University Grenoble 2.
- 1998 / 1999: Level scientific option mathematics - Valence Barthelemy De Laffemas.

## **Languages:**

- French: native language.
- English: live in London since 2006.
- Italian: good skills, both written & oral.
- Spanish: trying (time spent in Central & South America).

## **Misc:**

- I'm self-employed since 2008 (over 5 years).
- I do illustration as well but rarely (never!) for the advertising world.
- I play music in a rock'n roll band called Revenge For The Trucks and also run the small label: Keep On Truckin' Records.
- I'm an enthusiastically avid book & graphic novel reader.
